4. TAX WITHHOLDING ELECTION FOR CONVERSION

Withholding Instructions. Under IRS rules, a conversion to a Roth IRA is treated for income tax purposes as a distribution of taxable amounts in the other IRA. IRS rules also require the custodian to withhold 10% of the amount transferred for federal income taxes unless no withholding has been elected. See IRS Publication 505, "Tax Withholding and Estimated Tax" for more information. State tax withholding may also apply if federal income tax is withheld. **Caution:** Withholding income taxes from the amount converted (instead of paying applicable income taxes from another source) may adversely impact the expected financial benefits of transferring from another IRA to a Roth IRA (consult your financial adviser if you have a question). Because of this impact, by electing to convert to a Roth IRA, **you are deemed to elect no withholding unless you check the box below.** In so doing, you acknowledge that you may be required to pay estimated tax and that insufficient payments of estimated tax may result in penalties.

Withhold 10% for federal income taxes (if you want a greater percentage, write it here: %)
