

International Value Advisers Response to COVID-19

During these unprecedented times, our top priority is to protect the safety and wellbeing of our employees, the communities in which we live and the clients we serve. To that extent, we felt it prudent and necessary to activate provisions of our Business Continuity Plan in an effort to help stop the spread of COVID-19 while continuing to best service our clients.

Our Business Continuity Plan allows us to operate without disruption through a variety of disaster scenarios. A majority of our employees are working remotely, but the office remains open for critical employees and those who choose to work at our office. Critical employees currently reporting to the office have the ability to work remotely should it be deemed necessary. Additionally, we have engaged with our key third party service providers to assess their business continuity plans and feel confident in their ability to provide uninterrupted service.

We have temporarily suspended all business travel and implemented visitor restrictions. Any scheduled and future meetings will be conducted by telephone. Please contact your IVA client service representative by telephone or email if you would like to schedule a call or have any questions.

We have been continuously monitoring the situation to ensure we are taking the necessary steps to keep our employees safe while providing uninterrupted service to our clients.
